Tractor Implements

GRADER BLADES

*Helping farmers improve
productivity for over **50 years***

KIWI PRODUCTS BUILT TO SUIT NZ FARMS!

The thing about Kiwis is that we like to put things to the test; none more so than the Kiwi farmer! For the last 50 years the Pearson team have been building tractor implements and farm equipment that can stand up to those tests.

Our range of loaders, grader blades, and tractor implements have earned their rightful reputation as the toughest, longest-lasting option. Every product in the Pearson range is made at our Matamata factory and each step in the production process from design, through to blasting and painting is undertaken in-house to ensure the finer details are done right!

The Pearson grader blade range is designed to be hard-wearing and suited to most tasks on the farm. With years of experience building grader blades we can safely say that your Pearson grader blade will stand the test of time!

GRADER BLADES

MEGA GRADER BLADE

Pearson Mega Grader Blades have been built for high horsepower tractors and are designed to tackle the biggest jobs. The Mega model is the crème de la crème of blades and all the extra features and added protections you could want from a top-quality grader blade.

Designed to last longer

We've taken extra steps to ensure the Mega Grader Blades can endure a long life of everyday use. Mega Grader Blades are designed with a deep boxed moldboard for extra rigidity and are fitted with heavy-duty, extra-strong rams with 35mm greaseable pins at all ram pivot points. We also use replaceable Teflon DX bushes on all rotating pin parts to minimise wear on core componentry.

These units are fitted with short sacrificial blades at the end for easy replacement and all blades are double-edged for double the life. Head pins and moldboard pins are oversized (60mm and 100mm respectively) for extra strength.

Practical features for greater usability

Mega Grader Blades have a large blade turn table for greater stability and up to 130kg of ballast can be added to the blade to ensure perfect level finishes. These blades come standard with three rams and have two options for levelling wheels; one is a wheel centrally mounted to the main body, whilst the other has two wheels that are mounted directly to the back of the blade ends, ideal for when an increased level of finish is required.

Model	Width (Mm)	Power Range	Weight (Kg)
Mega - 2.7m	2,700	120+	752
Mega - 3.0m	3,000	120+	776
Mega - 3.3m	3,300	120+	806
Mega - 3.6m	3,600	120+	829

OPTIONS

- ☒ Central, body mounted levelling wheel
- manual adjustment
- ☒ Central, body mounted levelling wheel
- hydraulic adjustment
- ☒ Twin levelling wheels mounted directly
to blade ends – manual adjustment

GRADER BLADES

MEGA GRADER BLADE

 Mounting for single or dual wheels

 Double clevis cat 3 linkage

 Replace high wearing tips seperately

 60mm headstock pin

 All pins 35mm DX bushed protected grease nipples

 Hard piped hydraulics

 Add Ballast for increased down-force

Reinforced Blade Post

100mm Pivot Pin

Protected Grease Nipple

35mm DX Bush Pin

Multi Labarith Turn Table

GRADER BLADES

MIGHTY GRADER BLADE

Pearson Mighty Grader Blades are ideal for track maintenance, backfilling, landscaping and vee draining. The hydraulic versions are particularly versatile.

Practical and easy to use

Pearson Mighty Grader blades are designed to be easy to use, the double clevis mounting to the tractors 3-point linkage ensures the full tractor horsepower can be transferred to the blade. This enables excellent engagement in all three adjustment areas; angle, camber, and offset. The back of the blade is clear so there is less chance of damage when reversing. The mighty blade also allows for the mouldboard to be turned 180 degrees and used as a bulldozer blade when pushing backwards with the tractor. All blades have fully reversible cutting edges.

These blades have a well-formed mouldboard offering excellent cleaning ability. Mighty blades are also able to be fitted with a heavy-duty industrial strength levelling wheel to help you achieve a top quality finish.

When the job is done you can also easily detach and leave standing upright using the parking leg which comes as a standard feature.

Super strong for a longer life

Mighty Grader blades have several life-extending features that protect them from the harms of everyday wear and tear. We use Super-strong, re-tensionable, greasable angle/pivot pins for long life and Monocoque chassis for extra strength.

Using a 50mm pivot pin. Industrial heavy-duty levelling wheel. Reinforced mouldboard to the outside edge for strength and durability.

Model	Width (Mm)	Power Range	Weight (Kg)	Reach (Mm)	Angle (Max)	Camber (Max)	Offset Angle
Mighty - Manual	2100	70-120	500	1760	+/- 40°	36°	37°
Mighty - 1 Ram	2100	70-120	520	1910	+/- 40°	36°	37°
Mighty - 2 Ram	2100	70-120	530	1910	+/- 40°	36°	37°
Mighty - 3 Ram	2100	70-120	540	1910	+/- 40°	36°	37°
Mighty - Manual	2400	70-120	520	1760	+/- 40°	36°	37°
Mighty - 1 Ram	2400	70-120	540	1910	+/- 40°	36°	37°
Mighty - 2 Ram	2400	70-120	550	1910	+/- 40°	36°	37°
Mighty - 3 Ram	2400	70-120	560	1910	+/- 40°	36°	37°

OPTIONS

- ☒ Levelling wheels (manual or hydraulic options)
- ☒ 3rd service electric options
- ☒ Manual version or 1, 2, or 3 hydraulic rams available

NOTE

Tractors with Cat.3 Quicklink lower link require modified mounting plates. Please advise at the time of purchase

Blade angle relative to tractor = offset angle plus set angle

GRADER BLADES

MIGHTY GRADER BLADE

 Triangulated 3 point linkage headstock

 Large turntable

 Double clevis

 Deep curve rolls material forward

WHAT OUR CUSTOMERS SAY

✓ We use our Pearson grader blade regularly; it is well built, and no doubt will last longer than me. I highly recommend the levelling wheel -it's perfect for getting a smooth finish. ✓✓
- Tony, Matamata

✓ Very good cutting edge and simple to use. I have used grader blades when I was younger, and this one is excellent. I am very impressed. ✓✓
- Murray, Opito Bay

✓ Pearson grader blades are built strong, easy to use and low maintenance with easy access to grease points. ✓✓
- Matt, Bay of Plenty

✓ A good machine. Easy to use, is strong, and works great. Don't think I'll be breaking it anytime soon. ✓✓
- Liam, Waikato

NEW ZEALAND MANUFACTURERS OF LOADERS AND IMPLEMENTS SINCE 1970.

Pearson Tractor Implements are made by Kaimai Steel and have been a farmer favourite since 1970. Kaimai Steel are based in Matamata, the centre of the Waikato farming community. Pearson loaders, implements, effluent handling equipment and grader blades have stood the test of time, both in terms of quality and innovative new designs. We are able to supply not only products to suit current tractor models, but also other models that are still in operation.
